LANDSCAPE IRRIGATION

...is the greatest area for potential water savings in Northern Utah. On average, the majority of water users overwater their landscapes by a significant amount. We value green, well kept landscapes and know that landscapes create pleasant and needed areas in urban settings. A few principles that will help you be water-efficient outdoors include:

- PLANNING AND PROPER DESIGN
- UNDERSTAND SOIL CHARACTERISTICS
- PLANTING THE RIGHT PLANT IN RIGHT PLACE
 - APPROPRIATE LAWN AREAS
 - SIMPLER, EFFICIENT IRRIGATION
 - PROPER USE OF MULCHES
 - PROPER MAINTENANCE

EVENTS

SPRING GARDEN FAIR

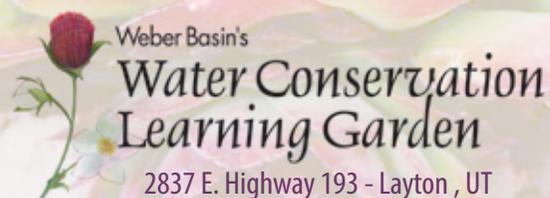

SATURDAY, JUNE 4
8 AM - 2 PM

Free hot dogs, cotton candy and drinks for all visitors. Learn from experts, purchase plants from local nurseries on site and participate in garden tours and water treatment plant tours. See the Learning Garden and get answers to all your questions or find some great plants for your own yard. Come and spend a few minutes with us!

FALL FOOD TRUCK ROUND-UP

SATURDAY, SEPTEMBER 24
10 AM - 2 PM

This event will focus on the Learning Garden with specialty tours and plant experts to help you know what amazing plants are available. Nurseries will be here to sell plants. Prize drawings throughout the event. Food trucks of all kinds will be here for you to purchase what you love to eat. Come, learn and enjoy the time with us at this fun fall event.

SEASONS

MARCH

PRUNING LIKE A PRO: (FRUIT TREES)

Saturday, March 12 10 - 12 pm

Peaches, apples and grapes, oh my! When and how should you prune your fruit trees? Learn how to maximize the productivity and vigor of your home orchard with our simple-to-do pruning principles. Pruning is the key to large fruit and healthy, manageable trees.

Other pruning classes are available through USU Extension. Call USU for details and locations: Weber County: 801-399-8201 Davis County: 801-451-3403

PRUNING LIKE A PRO: FEARLESS PRUNING (TREES, SHRUBS & ROSES)

Saturday, March 26 10 - 12 pm

Nothing seems to be more intimidating to the home gardener than pruning trees and shrubs. This class will teach you the "whys" and "hows" of pruning, making the task simple, enjoyable and fearless. Class will cover ornamental trees, shrubs and roses.

APRIL

KEEP CALM AND GARDEN ON (EARLY AND LATE SEASON VEGETABLE GARDENING)

Wednesday, April 6 6 - 7:30 pm

Got a bad case of Spring Fever? Satisfy your need to garden by getting a jumpstart on the growing season. Learn what vegetables are best to grow early. Get more produce by creating a small greenhouse or low and high tunnel spaces. Learn what to grow for late harvest so you can enjoy it longer. Let's get excited about gardening and grow on!

SPRINKLERS, TIMERS & TUNE-UPS

Wednesday, April 13 6 - 7:30 pm

Are you overwhelmed by your sprinkling system, and you don't know how long or how frequent to water? Does your sprinkler controller seem to be a complicated mess of mysterious wires, buttons and settings? Learn how to conquer your system and adopt water saving practices while maintaining a green and healthy yard.

CONTEMPORARY AND CLASSIC CONTAINERS

Saturday, April 23 10 - 11:30 am

Whether you love your classic wave petunia pot or want to branch out and try something new, this class is for you! Learn to create classic annual, partial perennial or new contemporary style containers. Containers can be just as unique as you are. Don't miss this class.

MAY

VEGGIE GARDENING FROM A-Z

Wednesday, May 4 6 - 7:30 pm

From artichokes to zucchini, basil to sage, you can learn to grow any herb or vegetable. Increase the variety of vegetables in your garden and try some things you may be missing out on. We can teach you how!

GROW GREENER GRASS

Saturday, May 21 10 - 11:30 am

Did you know you can have a healthy lawn and use much less water? An overwatered lawn has shallow roots and a pale complexion. Proudly sport the greenest lawn in your neighborhood by following our effective, yet surprisingly conservative principles to maintain your healthy, green lawn.

THE SECRET OF YOUR SOILS

Wednesday, May 25 6 - 7:30 pm

Sand, silt, clay, or loam; do you know what kind of soil you have? Learn the properties and characteristics of soils and how to be successful with the soils you are stuck with. Also, learn how and what to do with soils to try to improve them.

**CLASSES AND EVENTS
ARE FREE TO THE PUBLIC
AND ARE HELD AT**

**THE LEARNING GARDEN
2837 E. HIGHWAY 193 - LAYTON, UT**

JUNE

SPRING GARDEN FAIR

Saturday, June 4
8:00 am - 2:00 pm (Details online)

CREATING A CACTUS GARDEN

Wednesday, June 15 6 - 7:30 pm

Prickly and poky yet exquisite and efficient. No, we aren't talking about animal skulls and old wagon wheels. Cacti have an amazing variety of colors, sizes, and textures. Come discover the wonderful world of cacti gardening.

A RAINBOW OF PERENNIALS

Saturday, June 25 10 - 11:30 am

If you want color in your garden year round, this class is for you! Explore the wide range of color that perennials offer all throughout the year. Come and see live examples in our garden! You may be amazed at the many plant varieties that you can grow in your yard for extended color and interest.

AUGUST

GROW, EAT, LOVE

Saturday, August 6 10 - 11:30 am

We all want to be happy, healthy and effective in all we do. Food doesn't have to be unhealthy to taste good! Learn how to make easy, clean, delicious meals from produce grown in your garden. We will be demonstrating how to make green smoothies, salsas, and other fresh items from your garden. **Samples and recipes will be shared.**

SAVING WATER FOR EMERGENCIES

Saturday, August 20 10 - 11:30 am

Did you know that people will only last three to five days without water? Learn how to store, maintain, and treat an emergency supply of this life-sustaining commodity for your family and your garden. It is not as hard as it may seem.

HOME PESTICIDE OPTIONS AND SAFETY

Wednesday, August 24 6 - 7:30 pm

If you have ever needed to get rid of some pests in your garden but didn't know how to do it both safely and effectively, then this class is for you! Learn how to use pesticides and natural methods in friendly and efficient ways.

SEPTEMBER

PRESERVE AND BE PREPARED!

Wednesday, September 7 6 - 7:30 pm

Enjoy the tastes of summer as you learn how to can, dry, and preserve your favorite home grown fruits and vegetables. Having your own home grown food available all year for your enjoyment is becoming a lost practice. Come and learn how to preserve and enjoy your food.

FALL FOOD TRUCK ROUND-UP

Saturday, September 24
10:00 am-2:00 pm (Details online)

HEALTHY HOUSEPLANTS & TROPICALS

Wednesday, September 28 6 - 7:30 pm

Discover the world of indoor gardening! Fill your home with beautiful houseplants and unique tropicals. Let the experts teach you how to care for them. It's not as hard you think, and you will create a wonderful indoor environment in your home!

OCTOBER

WINTERIZING YOUR GARDEN AND SAVING YOUR SEEDS

Wednesday, October 12 6 - 7:30 pm

Fall is here. It's time to put your garden to bed. Learn how to properly tuck in your garden and get it ready for the winter months. Enjoy those delicious vegetables you grew this season next year by learning how to save seeds.
